

# Daniel Dyssegaard Kallick

145 East 29th Street Apt 3C • New York, NY 10016  
(646) 920-6468 • ddyssegaardk@gmail.com

---

## Projects

- **Facespace.website** LIVE  
*Full-featured clone of Facebook. Rails, React, Redux.* Github
  - Designed a RESTful JSON API using Rails to interact with PostgreSQL database.
  - Incorporated live updates using web sockets and the pusher API.
  - Leveraged Rails polymorphic associations to implement infinitely nested comments.
  - Ensured that users can log in from multiple locations by saving multiple sessions.
- **ChickenBells** LIVE  
*Addictive game where you jump on things* Github
  - Developed a JavaScript game from scratch using HTML5 canvas.
  - Did something else
- **ActiveRecord Lite** LIVE  
*Lightweight ORM providing an interface between Ruby applications and a database* Github
  - Did something
  - Engineered a custom solution for translating database rows into Ruby objects.

## Skills

- Ruby, Rails, Python, JavaScript, jQuery, Node.js, React, Redux, AWS, SQL, PostgreSQL, Git, HTML, CSS, Linux,  $\text{\LaTeX}$ , QGIS
- Bilingual (English, Danish), and conversational Spanish

## Education

- **App Academy** New York, NY  
*Highly selective full-time full-stack web development course* 2017
- **Reed College** Portland, OR  
*BA, Political Science* 2011-2015

## Experience

- **SEIU Local 32BJ** New York, NY  
*Paid Research Intern* September - December 2015
  - Mapped new real estate developments in East New York and citywide using GIS software and information drawn from publicly released environmental impact statements and other public sources.
  - Independently learned QGIS software over the course of two days.
  - Independently developed and documented a new workflow for translating lists of tax parcels into useful excel sheets, automatically geocoding addresses and adding relevant information from public databases using APIs from the department of city planning.
